

## PD4N-KNXs-BA-FM Set 93536-93731-92199

KNX PIR motion detector (Basic) with 360° coverage and a range of up to Ø24m (450 m²)

### Order data

| Designation                     | Colour     | Art.No |
|---------------------------------|------------|--------|
| PD4N-KNXs-BA-FM                 | white      | 93536  |
| lens PD4N, Cover ring           | anthracite | 93731  |
| Wire basket BSK (Ø 200 x 90 mm) | white      | 92199  |

## Technical data

|                                        |                                                                                                          |
|----------------------------------------|----------------------------------------------------------------------------------------------------------|
| Voltage:                               | via KNX BUS                                                                                              |
| Dimensions:                            | <b>Ø 200 x 90 mm (92199)</b>                                                                             |
| Typ. power input:                      | 12 mA                                                                                                    |
| Detection area:                        | horizontal 360°<br>(Ceiling mounting)<br>max. Ø 24 m across<br>max. Ø 8 m towards<br>max. Ø 6.4 m seated |
| Range:                                 |                                                                                                          |
| Monitored area (tangential movement):  | 450 m <sup>2</sup> / 2.5 m mounting height                                                               |
| Mounting height min./max./recommended: | 2 m / 10 m / 2.5 m                                                                                       |
| Degree / class of protection:          | IP20 / Class III                                                                                         |
| Impact strength:                       | <b>IK09 (92199)</b>                                                                                      |
| Ambient temperature:                   | -25 °C to +55 °C                                                                                         |
| Housing:                               | <b>polycarbonate, UV-resistant + coated steel basket (92199)</b>                                         |
| Material color:                        | <b>anthracite mat, similar to RAL7016 (93731)</b>                                                        |
| Number of light sensors:               | 2                                                                                                        |
| Number of PIR sensors:                 | 4                                                                                                        |
| KNX TP 256:                            | Yes                                                                                                      |
| KNX Secure:                            | Yes                                                                                                      |
| Brightness set value:                  | 5 – 2000 Lux                                                                                             |

## Product information

Set : PD4N-KNXs-BA-FM + lens PD4N, Cover ring anthracite mat, similar to RAL7016 + Wire basket BSK (Ø 200 x 90 mm) white

KNX occupancy detector with integrated KNX bus connector

KNX Secure ready

Individual adaption of detection sensitivity for each PIR sensor

Mixed light measurement using internal, external and remote (optional) light sensors

Intelligent semi-automatic mode, occupancy-independent regulating mode (photoelectric switch), full automatic mode

1 x light output (for regulating or switching), 1 x slave output

Soft-start

Deactivatable status indicators

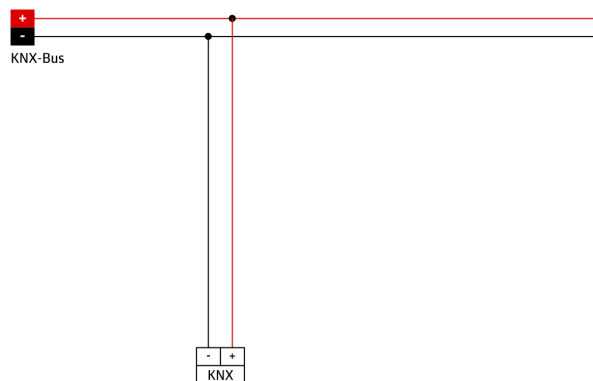

Detection area can be extended thanks to master-slave-mode

Extensive optimization options for light measurement

Measured light value is communicated to the bus

Manual influence via external KNX push buttons possible

Behaviour upon bus voltage return definable at choice

## Set items

To receive the bundle according to the technical specification, please order the items listed.

### **PD4N-KNXs-BA-FM**

Art.No: 93536

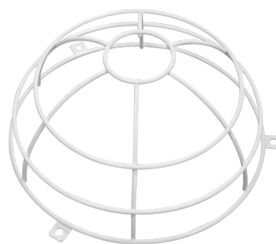

Voltage: via KNX BUS  
Dimensions: Ø 106 x 55 mm  
Typ. power input: 12 mA

### **lens PD4N, Cover ring**

Art.No: 93731

Detection area: horizontal 360° (Ceiling mounting)  
Range: max. Ø 24 m across  
max. Ø 8 m towards  
max. Ø 6.4 m seated  
Monitored area (tangential movement): 450 m² / 2.5 m mounting height

### **Wire basket BSK (Ø 200 x 90 mm)**

Art.No: 92199

Dimensions: Ø 200 x 90 mm  
Impact strength: IK09  
Housing: coated steel basket
